

Induction Copper Melting Furnace High Durability Low Noise Level

Our Product Introduction

for more products please visit us on melt-furnaces.com

Basic Information

- Place of Origin: China
- Brand Name: Huarui
- Certification: patent; national testing report; quality management system
- Model Number: to be customized
- Minimum Order Quantity: 1
- Price: to be negotiated
- Packaging Details: waterproof
- Delivery Time: 30~45 days
- Payment Terms: T/T/ L/C
- Supply Ability: 1000000

Product Specification

- Advantage: High Power Saving
- Reliability: High
- Durability: High
- Noise Level: Low
- Noise: Low
- Efficiency: High
- Safety System: Quick And Reliable
- Highlight: Induction Copper Melting Furnace,
Copper Melting Furnace High Durability

Product Description

Product Description:

Our company has passed ISO9001 quality system authentication and our main products include thyristor serial connection medium frequency electric induction melting furnace and IGBT transistor medium frequency electric induction melting furnace(one inverter cabinet controls one furnace or one inverter cabinet controls multiple furnace). All the products adopt the latest international technology. With advanced manufacturing equipment and scientific and rigorous design & production process, our product quality and technology keeps at leading level in this industry. Our energy-saving electric furnace's performance such as safety, energy saving and environmental protection etc. are much higher than national standards. Our quick speed energy-saving medium frequency electric furnace with 100-30000KW power and 0.5T-60T furnace capacity can save energy at the rate of 15-20%, this makes it keep in leading position in this industry.

Intelligent digital remote detection system and remote diagnosis system is applied for engineers to diagnose on-site running conditions in real-time and provide real-time on-site services when they are not on site.

Power from one set of power cabinet can be synchronously distributed to two smelting furnaces at your any random requirements, one furnace is for smelting, the other one is for insulation synchronously, achieving continuous supply of molten iron in pouring line.

Features:

Product Name: Copper Melting Furnace

Safety System: Quick and Reliable

Noise: Low

Advantage: High Power Saving

Durability: High

Noise Level: Low

Technical Parameters:

Aluminum Shell Induction melting furnace power supply, thyristor type serial-connected resonance medium frequency type, (4 tons), as for other data of other capacity (tons), please check other pages in our this website.

Characteristic	Description
Type	GW4.0-3000-0.3S
Rated capacity (T)	4.0
Rated power (KW)	3000
rated frequency (HZ)	300
power supply (V)	575x2
inlet current (A)	1500x2
medium frequency voltage (V)	2800
load type	One power supply cabinet drives two induction furnaces
adapted transformer (KVA)	3150

Applications:

Huarui induction copper melting furnace is custom made with patent, Huarui furnace is the best choice for any copper melting needs, it can not only melt copper, but also melt iron, steel, aluminum, zinc and other metal material.

Support and Services:

Copper Melting Furnace Technical Support and Services

We are committed to providing our customers with the highest quality products and services. Our team of experienced technicians provide excellent technical support and services for Copper Melting Furnace.

Provide installation and maintenance services.

Troubleshoot and diagnose problems.

Provide technical advice and guidance.

Offer spare parts and replacement services.

Provide training on the proper operation and maintenance of the equipment.

We try our best to provide reliable and cost-effective solutions to our customers. If you have any questions or need assistance with your Copper Melting Furnace, please do not hesitate to contact us.

Packing and Shipping:

Packaging and Shipping

The Copper Melting Furnace will be packaged in a reinforced box and securely sealed. The box will be labeled with the shipping address, product name and a return address. We will use a reliable shipping carrier to ensure that the product arrives in its original condition.
