

High Power Saving Induction Furnace For Steel Melting High Durability

Our Product Introduction

for more products please visit us on melt-furnaces.com

Basic Information

- Place of Origin: China
- Brand Name: Huarui
- Certification: patent : national testing report; quality management system
- Model Number: to be customized
- Minimum Order Quantity: 1
- Price: to be negotiated
- Packaging Details: water proof
- Delivery Time: 30~45 days
- Payment Terms: T/T; L/C
- Supply Ability: 1000000 sets

Product Specification

- Safety: Complete And Reliable
- Maintenance: Low
- Failure: Low
- Advantage: High Power Saving
- Durability: High
- Melting Speed: Quick
- Noise: Low
- Highlight: **Power Saving Induction Furnace For Steel Melting**
,
High Durability Induction Furnace For Steel Melting

Product Description

Product Description:

Steel melting furnace is a reliable and highly durable induction melting furnace for steel. It is designed to provide complete safety for operators and it has a low maintenance requirement. With its advanced technology, the steel melting furnace has a low failure rate and quick melting speed. It is ideal for steel melting applications, making it an ideal choice for steel foundries.

This steel melting furnace has a number of features that make it different from other induction melting furnaces. It is designed to provide maximum efficiency, allowing for quick steel melting speed. It also has a low maintenance requirement, ensuring that users can get the most benefit out of their investment. Additionally, it is designed with safety in mind, providing complete and reliable protection for operators.

The steel melting furnace is ideal for steel melting applications, providing a quick and efficient solution. It is highly durable and reliable, making it a perfect choice for steel foundries. With its advanced technology and low failure rate, it is the perfect choice for any steel melting application. It also requires low maintenance, making it an excellent choice for all foundries.

The steel melting furnace is a perfect choice for any steel melting application, providing a reliable solution that requires minimal maintenance. It has a high durability and a low failure rate, making it an ideal choice for steel foundries. Its quick melting speed and complete safety for operators make it a great choice for any steel melting application. With its advanced technology and low maintenance requirement, the steel melting furnace is an ideal choice for any steel melting application.

Features:

Steel Melting Furnace: Induction furnace for melting steel, steel induction melting furnace, electric induction furnace for melting steel.

Noise: Low

Failure: Low

Advantage: High Power Saving

Maintenance: Low

Safety: Complete And Reliable

Technical Parameters:

Induction melting furnace power supply, thyristor type serial-connected resonance medium frequency type(20 tons), as for other data of other capacity (tons), please check other pages in our this website.

Characteristic	Description
Type	GW20-9000-0.3S
Rated capacity (T)	20
Rated power (KW)	9000
rated frequency (HZ)	300
power supply (V)	950x4
inlet current (A)	1361x4
medium frequency voltage (V)	2800
load type	One power supply cabinet drives one induction furnace
adapted transformer (KVA)	10000

Applications:

Steel Melting Furnace is an advanced and reliable electric induction furnace developed by Huarui. It is a perfect choice for melting steel. It is provided with patent, national testing report and quality management system certification, all of which make sure the high quality and safety performance. Huarui Steel Melting Furnace is characterized by quick melting speed, low noise, low failure rate, low maintenance cost and complete and reliable safety. It has a minimum order quantity of 1 set with a price to be negotiated and it can be shipped with waterproof packaging in 30 to 45 days. The payment terms include T/T or L/C and we can provide 1000000 sets one year or so for supply.

Customization:

Steel Melting Furnace
Brand Name: Huarui
Model Number: to be customized
Place of Origin: China
Certification: patent : national testing report; quality management system
Minimum Order Quantity: 1
Price: to be negotiated
Packaging Details: water proof
Delivery Time: 30~45 days
Payment Terms: T/T; L/C
Supply Ability: 1000000 sets
safety: Complete And Reliable
melting speed: Quick
durability: High
maintenance: Low
noise: Low

Huarui Steel Melting Furnace is perfect for your melting steel needs. It has been designed to provide complete and reliable safety, quick melting speed and high durability with low maintenance and low noise. Our steel melting furnace has been certified with patent, national testing report and quality management system. Please contact us for more information and to receive a customized quote.

Support and Services:

Steel Melting Furnace Technical Support and Service

We provide professional technical support and service for Steel Melting Furnace. Our team of experienced professionals are available to assist with product installation, troubleshooting and maintenance.

We offer comprehensive maintenance programs and support services, through which we can keep your Steel Melting Furnace in top condition. Our services include regular inspections, preventive maintenance, and emergency repairs.

We also provide online resources to help customers with their Steel Melting Furnace. Our online support center includes product manuals, troubleshooting guides, and technical data sheets.

For any technical problems or questions, please do not hesitate to contact us. Our experienced engineers are available to answer your questions and provide technical assistance.
